EXPERIENCE

Business Analyst

January 2005- present

Thomas White International

Chicago, IL

- This firm is an investment manager and independent research provider, analyzing securities in the U.S. and 50 other markets around the globe.
- Audited and reported on the firm's international equity trading systems.
- Participated in creating and updating an excel database used for selling equity research reports.
- Set up of model portfolios, prepared reports and analyzed portfolios.
- Set up of new client accounts, balanced and resolved discrepancies on accounts.

Head Fixed Income Trader

April 2001-January 2005

Thomas Hallal, Tomworks, Inc.

Clearing Firm: Goldenberg Hehmeyer

Chicago, IL / Vail, CO

- This firm represented one of the largest private 30-year Treasury bond trading accounts in the US. Principal retired after 25 years in the business. Managed daily positions that averaged \$500 million. Investment approach demanded executing from 100-300 transactions globally over each 24-hour period. Envious investment and error record.
- Executed trading strategy that arbitrated inefficiencies in the yield spread, specifically the varying spreads between the cash and futures markets in 30 and 10-year treasuries (trading the bond basis). This operation's risk was reduced through extensive hedging.
- Established and managed the firm's locations in Chicago, Cleveland, Vail and Newport Beach.

Head Equity Trader/Business Administrator

February 1999- November 2000

Cambiar Investors

Denver, CO

- Head trader for investment management firm which managing \$4 billion in assets. Clients included Boeing and United Airlines retirement accounts.
- Executed trades with a wide range of institutional brokers. Had superior error record. Reduced performance disparity between accounts and supervised the firm's wrap portfolio positions.
- Managed firm's policies on soft dollars and commission compensation.

Software Engineer/ QA

August 1998-January 1999

Microhedge/ Sunguard

Chicago, IL

- Designed software for options on futures products. Released to market.
- Acted as QA Engineer/Analyst. Including diversified experience in manual and automated testing of web and client/server applications.
- Provided quality assurance testing methodology relative to the Software Development Lifecycle (SDLC).
- Executed test planning, test case design, documentation and execution and defect reporting.
- Tested and validated the application against the database.
- Created SQL scripts for back end testing and validating the database.
- Created automated scripts and data driven tests to test the functionality of the application.
- Edited and played back the scripts after fixing the bug.

EDUCATION

Bachelor of Arts, 1994

University of Colorado

Boulder, CO

- Economics/ Geology Major

SKILLS

- Proficient with cash, futures and equity trading platforms. These include E-Speed, Brokertec, E-CBOT, Advent, Moxy, Microhedge, Bloomberg, CQG, Telerate, Widetracker, Instinet and Eurex.
- Work independently to access financial information, reach conclusions, and write clear summaries of findings. High degree of dependability in pressured situations where timely and accurate decisions are critical.
